

MTS-VAS

Vehicle Activated Sign

AVAILABLE TO HIRE OR BUY

High Visual Impact

The Vehicle Activated Speed Sign (VAS) with 900mm Diagram 670 and 225mm high SLOW DOWN text making this sign ideal for use within roadworks on all types of roads or anywhere a temporary speed limit is in force.

The sign has displays of '20', '30', '40' and '50' incorporated into the sign face. The unique manual switching facility on the sign allows the user to instantly change both the detection speed and the speed displayed in one operation to suit the current limit.

The trailer can also be utilised within existing speed limits as a speeding deterrent.

Applications include:

- ✓ Speed control signs
- ✓ Incident management
- ✓ Temporary speed limit enforcement

Key Features & Benefits

- ✓ Alerts traffic of current speed limit
- ✓ Robust lightweight construction for easy towing
- ✓ Minute footprint of 1400mm x 1100mm
- ✓ Adjustable supports to each corner
- ✓ Easy one man operation and set up
- ✓ Folds down neatly for transportation
- ✓ In built battery charger & management system
- ✓ Battery powered with 50w Solar Panel to prolong battery life

MTS-MIDI

Traffic Management Sign

AVAILABLE TO HIRE OR BUY

Compact and Effective

Suitable for use within urban areas where space to site a trailer mounted sign on a pavement or verge is at a premium - The MTS-MIDI has an ultra small footprint of 1400mm x 1100mm when set up.

The MTS-MIDI is GSM remote programmable, eliminating the need to attend site to change the message.

Battery powered with solar augmentation to prolong battery life. The trailer offers an environmentally friendly, non-diesel power source to keep your message shining bright and clear as and when you need it.

Applications include:

- ✓ Incident management
- ✓ Advance warning & forthcoming event traffic delays
- ✓ Urban utility works

Key Features & Benefits

- ✓ Robust lightweight construction for easy towing
- ✓ Minute footprint of 1400mm x 1100mm
- ✓ Adjustable supports to each corner
- ✓ Easy one man operation and set up
- ✓ Folds down neatly for transportation
- ✓ In built battery charger & management system
- ✓ Battery powered with 50w Solar Panel to prolong battery life
