## T25-CCTV

AVAILABLE TO HIRE OR BUY

### Portable Surveillance on Demand

The MTS T25-CCTV Security Trailer provides a fully autonomous CCTV platform for temporary surveillance applications, where power and local fixing points are not readily available.

The battery powered, solar recharge T25 trailer provides a stable platform for the Award winning Wireless CCTV 3G Mini-Dome camera.

Designed as the worlds first and only 3G optimised board within the camera housing, the Mini-Dome boasts a low light sensitive colour camera with high-speed pan, tilt and zoom functionality.

With class leading low weight and unlimited no surprises data package; the Mini-Dome can be viewed remotely and simply via a web-browser. It can also record data continuously or be programmed on condition-record basis, delivering high quality images upon demand.

### Applications include:

- ✓ Temporary Security Surveillance
- ✓ Road Traffic Survey
- ✓ Event Management Surveillance
- ✓ Campus Security
- ✓ Utility Project Management

### Features & Benefits

- ✓ Rapid Deployment
- ✓ Multi-Site Usage
- ✓ High Quality Images
- ✓ Pan, Tilt & Zoom
- ✓ No Diesel Fuel Costs
- ✓ Kind to the Environment
